

Syllabus and Honor Code Statements Regarding the use of Artificial Intelligence (AI)

Use of Artificial Intelligence in Coursework:

While Artificial Intelligence is being used in many professions and industries, the purpose of a liberal arts education is to provide students with learning experiences that cultivate critical thinking, intellectual curiosity, creativity, and problem solving. Artificial Intelligence cannot substitute for these. Academic Integrity is the foundation of all academic work. As your instructor, I want to remind you of the importance of academic integrity and proper citation in your work. [Insert “Acceptable Use” or “No Acceptable Use” of AI statement here]

[Acceptable Use of Artificial Intelligence]

In this course, all submitted work must be your own original work, unless you are assigned specific tasks or assignments for which you are permitted to use Artificial Intelligence tools or services. While Artificial Intelligence can be a useful resource for generating ideas, exploring topics, or engaging with industry specific AI tools and practices, it is important to use AI appropriately and ethically in this class, and only with prior approval. If you are unsure whether or not you can use artificial intelligence for a particular assignment, check with the instructor beforehand. As with all sources you use in your academic work, it is essential that you properly cite any AI material you incorporate. When citing artificial intelligence resources, include the name of the AI tool and the date you accessed it.

[How do I cite generative AI in MLA style? | MLA Style Center](#)

Any instances of academic dishonesty will not be tolerated and will be addressed according to the policies outlined in the Academic Honor Code.

[No Acceptable Use of Artificial Intelligence]

In this course, all submitted work must be your own original work. Any submission of AI-generated, AI supported or AI enhanced work, including outlining, drafting, writing, creating, responding to discussion posts, preparing presentations, or taking quizzes, tests, or exams, will be considered an academic integrity violation and will result in appropriate disciplinary action.

ACADEMIC HONOR CODE STATEMENT [\(from the Saint Leo Academic Catalog\)](#)

ACADEMIC MISCONDUCT

Academic misconduct includes but is not limited to the following categories:

A. Cheating:

- Providing or receiving academic work to or from another student without the permission of the instructor/professor.
- Buying or selling academic work.
- Violating test conditions.
- Forging academic documents.
- Copying computer programs.

B. Plagiarism:

- Stealing and passing off the ideas and words of another as one's own or using the work of another without crediting the source whether that source is authored by a professional or a peer.
- Submitting an article or quoted material from a periodical or the internet as one's own.
- Retyping or re-titling another student's paper and handing it in as one's own.
- Intentionally or unintentionally failing to cite a source.

C. Unapproved use of Artificial Intelligence

- **Unauthorized student use of AI-powered tools or services to enhance performance on exams, tests, quizzes, discussion posts, papers, projects, or other assignments.**

D. Complicity:

- Helping another student commit an act of academic dishonesty.

E. Misrepresentation

- Resubmitting previous work, in whole or in part, for a current assignment without the written consent of the current instructor(s).
- Having another student complete one's own assignments, quizzes, or exams.
- Lying to a professor.
- Fabricating a source.
