

CTLE UPDATE

FALL 2024

CTLE NEWS

Need assistance with course design, teaching, or D2L? The CTLE offers personalized support to help you create engaging courses, master D2L, and refine your teaching practices. Visit <https://faculty.saintleo.edu/request-help/> to learn more about CTLE resources and connect with a CTLE team member today.

CTLE TEACHING TIP

Tips for Building Classroom Community

Ever felt like your students fall silent and are more interested in anything but your lesson? Here are some helpful tips!

- Use personal or topic-related stories to connect and build rapport.
- Encourage multiple perspectives to show students their thoughts are valued. Try asking, “What are some different ways we could solve this problem?”
- Create a safe space by rewarding honesty and respectful interactions. For instance, say, “Thank you for your honesty.”
- Engage using quick polls to gather useful feedback. Ask questions like, “Which part of today’s lesson did you struggle with the most?” or “How are you doing this week?”
