

## Faculty, stay tuned!

Call for Proposals for Fall's Faculty Development Day 2025 is coming soon. This is your opportunity to contribute to one of our biggest professional development events of the year! Along with the call, we'll unveil this year's official title, theme, and session tracks—all designed to inspire our faculty.

For questions, please contact the CTLE at [ctle@saintleo.edu](mailto:ctle@saintleo.edu)

# CTLE March 2025 Newsletter

Looking for some innovative and engaging material to add to your course? Take active learning to the next level with the Simulated Experiences at Saint Leo! These virtual interactions can be effortlessly woven into the course curriculum and are designed to give students a taste of real-world experience in conjunction with their studies. Reach out to the CTLE team and Learning Design to integrate simulations into your courses today!

The CTLE is excited to continue our "Thank a Professor" initiative, reflecting our commitment to the core value of Community. We encourage students to express their gratitude, as even a quick thank you message can have a lasting impact. Last spring, over 300 students shared heartfelt messages of appreciation for the professors who have shaped their educational journeys. We look forward to even more participation. We hope you'll be on the lookout for these special notes of appreciation from your students.

*Thank you!*

## Teaching Tip:

**Proposing a group project but worried about unfair workloads? Here are some fun strategies to keep it balanced and everyone happy:**

- Assign each person a specific role or section to ensure even workload.
- Have everyone maintain their own process notebooks to track progress, challenges, and reflections.
- Require a communication plan so the team knows when and how they'll work together.
- Use a peer feedback form so students can evaluate each other's contributions.
